"DOESN'T YOUR LAWN DESERVE THE ROYAL TREATMENT?"

PEST

SOLUTIONS, LLC

"If you have a pest problem, we have the Remedy"

MAY TECHNICIAN NOTES

WATER!! WATER!! WATER!!

We are changing this newsletter because the beginning of this is very important information: Many customers are calling in about yellow areas and weeds. Both are indications of areas where not enough water is reaching the root system for the grass to use the fertilizer applied or to have the herbicide reach the roots of the weeds. If you notice areas that are light in color or thinning please check your irrigation coverage by placing a container in that area (EX: tuna can, cat food can) and making sure an inch of water is actually getting to that area. As noted in previous letters to get the full results from the materials you have to water them in and they have to be reaching the root system.

This month's application will be a combination of fertilizer, both contact and systemic insecticides, and herbicides for weeds and sedge.

So it is imperative to run your sprinkler on a weekly basis. Rain once a month will not provide adequate hydration to your lawn. **If your lawn is in severe drought stress we can not treat weeds at time of service. It is that time to have your irrigation systems checked to make sure all is working properly and you are getting coverage.**

With hot dry weather, our southern turf grasses can be damaged by drought, hot spots, insects, and fungus. The time of recovery will depend on the amount of damaged area. Some lawns will take longer to recover. Lawn maintenance is vital. St. Augustine blades should be left at 3-4 inches after cutting.

Please note as always if you have quarterly tree/shrub service there is a minimum \$50 charge for any services in-between your regular service.

As always, Remember Royal Green has the **Remedy** for all of your lawn care, tree/shrub, rodent, pest control and termite needs. We also can do WDO Inspections/Reports for your Real Estate needs. Contact Phil with **Remedy Pest Solutions** at 904-743-2403. Don't forget to ask about our monthly Mosquito Control from March through October with Remedy.....
